

Level 2 Understanding Neurodiversity (Award)

Neurodiversity is a term we hear more often in society and at work, but do you and your team fully understand what it means and how to support neurodivergent people?

Under the Equality Act, it is important to understand how being neurodivergent affects people so everyone can take part fully in society, and your organisation can make the most of all the skills and talents available.

This **10-hour Level 2 award** is ideal for people who want to show neurodiversity awareness on their CV and for employers who want to create neurodiverse-friendly workplaces and services.

What you will learn

By the end of this course, you will:

- Understand what neurodiversity means in your organisation
- Know how neurodiversity affects individuals
- Reflect on your workplace and how it may affect neurodivergent people
- Learn how to support neurodivergent staff and customers

Endorsed by IEP

We are pleased that this course is now **endorsed by IEP**, recognising its quality and the positive impact it has. This shows our commitment to high standards in training and helping people improve skills for work.
